APPROVAL OF MINUTES

Minutes for the meeting of November 13, 2018 were approved (4-0-2), on proper motion by Prietto and Colby.

1. CITY OF CARLSBAD BEACH PROFILE SURVEY RESULTS

Greg Hearon of Coastal Frontiers Corporation provided a presentation and update on the Beach Monitoring Program within the Oceanside Littoral Cell, documenting changes in the condition of the coastline from Oceanside to La Jolla. The beach monitoring programs in the San Diego Region are an on-going partnership between several coastal cities (including Carlsbad) and the San Diego Association of Governments (SANDAG). This partnership produced the Regional Beach Sand Project (RBSP) I in 2001 & RBSP II in 2012, which deposited total of 3.7 million cubic yard of sand on 12 beaches county wide. In Carlsbad, Coastal Frontiers has performed beach profile surveys since 1988. The surveys are conducted at 15 local sites, and are performed semi-annually (spring and fall). Beach surveys are used to obtain shoreline data and measure the cross section of the beach, from the backshore to the shoreline. The comparison of the semi-annual surveys tracks the amount of sand material in the system. Mr. Hearon updated the committee on the latest beach profile survey which was performed in October 2018.

2. STATE OF CA DEPARTMENT OF PARKS & RECREATION ACTIVITIES

Lisa Urbach, San Diego North Coast Sector Superintendent, was absent., No State Parks report was provided.
