Currently, how accessible are the city services you need via a desktop computer or laptop?

195 respondents

Currently, how accessible are the city services you need via your phone or tablet?

190 respondents

What city services would you like to be able to access online, via a computer or mobile device?

- Responsibility documentation, finding out who is the appropriate person to talk with about specific services.
2 hours ago
- Water trash streets police
3 hours ago
- Easier bill Pay online access utility bills
5 hours ago
- Library
Senior centers
6 hours ago
- All of them I guess.
7 hours ago
- library, water, trash
7 hours ago
- I'd like to be able to pay bills online a lot easier.
7 hours ago
- Latest construction info, traffic, weekend event schedule
7 hours ago
- Yearly ADU renewal statement
7 hours ago
- I don't have a cell phone, I have a computer but use it sparingly, when I need a city service, which is rare, I use the telephone via my land line. I am old and old fashioned.
yesterday
- N/A
yesterday
- City records.
yesterday
- Library, transportation, entertainment/events
yesterday
- Everything I need is available
yesterday
- An app that displays current events and ideas for things to do in the city. It could have parks, restaurants, trails, etc.
yesterday
- All city services should be available digitally on both computers and mobile devices
2 days ago
- Safety notices, community activities
2 days ago

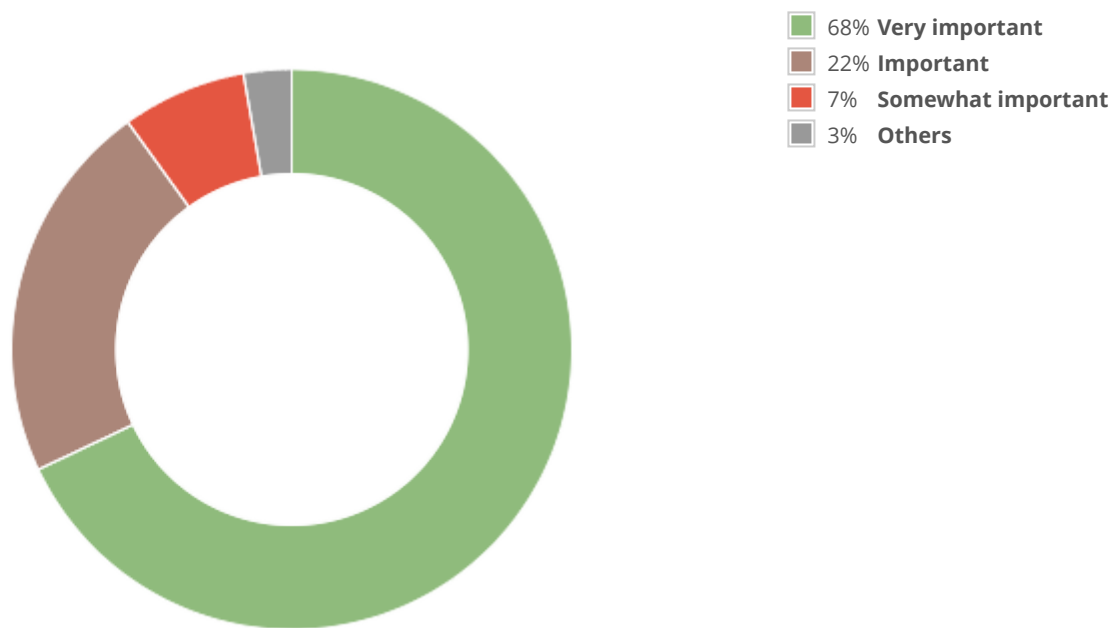

- Business Licenses
2 days ago
- All available.
2 days ago
- fill out and apply for a permit
2 days ago
- Crime in my neighborhood.
2 days ago
- All are av3
3 days ago
- There is a lack of communication regarding recyclables and garbage. There are so many items that are disposed of and there is no information on what category they fall into. It would be great to have a place to go to find out the proper way to categorize items.
3 days ago
- All.
3 days ago
- The process for registering for classes/events is a little cumbersome. It would be great if that could be streamlined and also be mobile friendly
4 days ago
- Upcoming events, music at parks, etc. Street closings (like the Carlsbad Marathon) etc.
5 days ago
- Water dept auto payments
5 days ago
- All
5 days ago
- Nothing more than what I have now
6 days ago
- Order bulky item or hazardous waste pick up and or drop offs.
6 days ago
- Would like to be able to provide input to decisions and to participate in group meetings of interested citizens using online tools such as Zoom.
6 days ago
- Txt to police department to include a picture or video
6 days ago
- Would to buy internet from City of Carlsbad NOT Spectrum or AT&T as an example
6 days ago
- Official appointments to commissions serving our community should provide a city email address for official correspondence.
6 days ago
- Everything should be accessible online.
6 days ago

- Same as prior comment
7 days ago
- Would like to see a link to police and fire dispatches
7 days ago
- Videotapes of a family member on the highway.
7 days ago
- It is pretty well covered.
7 days ago
- I access them mostly via computer. The interface is annoying.
8 days ago
- Wish City was an internet provider.
8 days ago
- Current police information. For example, today I ran into police road block and I'd like to be able to look up what was going on when I got back to my computer.
8 days ago
- Live traffic/accident updates
8 days ago
- Discussions and meetings of the planning committee on housing, in particular plans for the barrio and old carlsbad.
8 days ago
- Access to my City of Carlsbad bill (water, sewer, trash, etc)
8 days ago
- As above.
9 days ago
- None
9 days ago
- Just connections can be slow
9 days ago
- The website is cumbersome for some things. Its' not always easy to find what I'm looking for. It's been like this for a long time.
9 days ago
- More information about the content and subject matter of events rather than just the dates. More photos of art collection and gallery. Weekly calendar of all public events (ticketed or free) in Dove library and auditorium. (with quick access)
9 days ago
- Can't think of any
9 days ago
- the ones listed in the prior answer.
9 days ago
- I like being able to access the agenda and live feed for City Council Meetings as well as other general infomratoin on the City website.
9 days ago

- Utility payment
9 days ago
- Library via an App!
9 days ago
- Any and all
9 days ago
- The only difference between home computer and the phone is using an app.
9 days ago
- Public transport options and schedules
9 days ago
- Updates on prioritization and in-progress CIP projects.
9 days ago
- All
9 days ago
- No thoughts currently
9 days ago
- Everything is there that I need
9 days ago
- I already access the services I am most interested. I occasionally rent dumpsters through the city's solid waste services providers for remodel projects. Right now, I can only do that over the telephone. I would prefer to be able to do that online.
9 days ago
- Real time safety issues
9 days ago
- What are you trying to achieve? It kind of sounds like you're trying to solve a problem that doesn't exist.
9 days ago
- transit and bus route
11 days ago
- Permits
Code enforcement
12 days ago
- public records need a much better search capability and logical organization
12 days ago
- Citywide calendar of events (not just city sponsored events).
12 days ago
- Short term vacation rental List of locations/list of licensed stvr so homebuyers and renters know if they will be moving next to a HoTeL that lets strangers on the internet book without meeting a landlord. For the safety of our children and for the sake of potential predators and parking problems.
13 days ago

-  Sending pictures of RVs by phone direct to dispatch.
13 days ago
-  Reserving tennis courts at poinsettia park. Obtaining large picnic event permits at parks.
13 days ago
-  Events would be a lot easier to access if they were posted in social media like Facebook. The city websites are not user friendly at all. I often cannot find events on the website that have been advertised.
13 days ago
-  Pay utility bill, report non-emergency police need, report public works request
13 days ago
-  Direct comments to city council and real time response/opinion regarding live or upcoming council agenda items. Residents should be able to register for a unique id so we can voice our opinions and see how other citizens are responding. Just my opinion.
15 days ago
-  Easy access to police reports re crimes, misdemeanors, etc. that have occurred and updates with locations, traffic reports in area, street closures. It would be nice to receive secure emails with the info or links to go directly to this info instead of trying to figure out complexity of navigating sites.
15 days ago
-  Laws Polices and Regulations transparency in government and administration
15 days ago
-  Laws Regulations Polices government administration
15 days ago
-  weekly main events alert on my phone (app)
15 days ago
-  an app to report street issues, streetlight issues or other Public Works issues
16 days ago
-  Library, city engineering, police
16 days ago
-  public outreach
16 days ago
-  rides to senior center, free events
16 days ago

How important is it for the city to provide access to services online?

181 respondents

Loading more report objects...

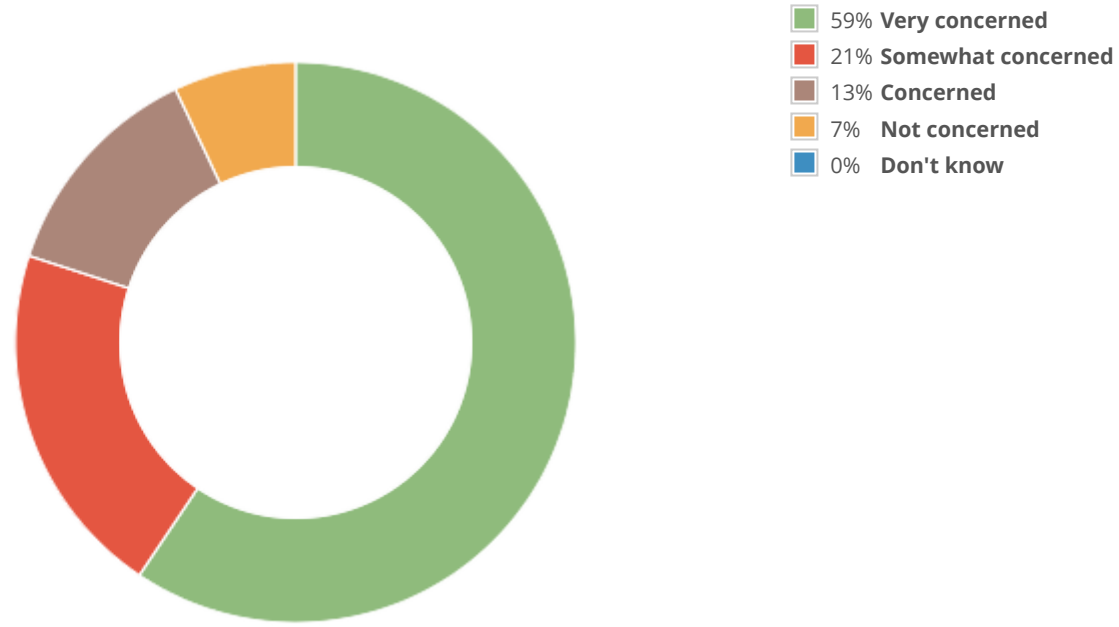

Please rank the the following ways of accessing city services from most preferred to least.

84%	Online via a personal computer	Rank: 1.81	138 ✓
85%	Mobile via a smart phone or a tablet	Rank: 1.93	140 ✓
81%	Telephone speaking to a live person	Rank: 2.48	133 ✓
75%	In person	Rank: 3.31	123 ✓

These five ideas guide the City of Carlsbad's strategy for creating a more digital and inclusive community. Please rank these in order of importance to you personally.

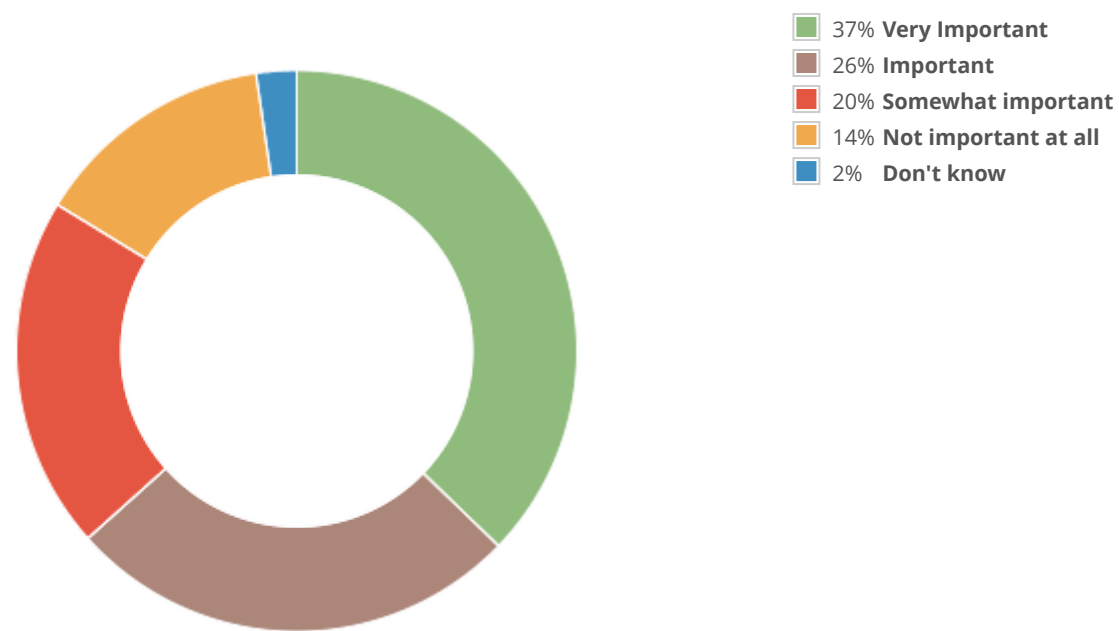

84%	Modernize and strengthen information technology infrastructure	Rank: 2.06	119 ✓
83%	Promote safety and sustainability through connectivity	Rank: 2.87	118 ✓
81%	Enhance accessibility and transparency	Rank: 2.88	115 ✓
77%	Foster a vibrant civic engagement culture	Rank: 3.02	110 ✓
78%	Build capacity for data-driven decision making	Rank: 3.33	111 ✓

How concerned are you about maintaining the privacy of information you provide to the city?

170 respondents

How important is it that the city provide free wifi to the public?

172 respondents

How important is it that the city provide free public wifi access at the following locations:

	Not important at all	Somewhat important	Important	Very important	Don't know
Libraries	3% Not important at all	5% Somewhat important	19% Important	72% Very important	1% Don't know
Community centers	4% Not important at all	8% Somewhat important	27% Important	59% Very important	1% Don't know
Parks	30% Not important at all	30% Somewhat important	16% Important	20% Very important	4% Don't know
Citywide	22% Not important at all	29% Somewhat important	19% Important	27% Very important	3% Don't know

150 respondents

What else you would like to tell us about how the city can use technology to improve the community and your life?

Universal response standardization. Being able to communicate with a person to solve a specific city-oriented problem like a park being gross and not maintained well, potholes, being able to notify about homeless congregation to encourage better service orientation. Carlsbad @Your Service needs to be more broad, including ancillary non-city based programs....and people need to know it actually exists. Honestly, if you inform HS students and elementary students, it will trickle home, because young school age children knowing pushes the parents to know more, and HS student parents want to be able to find programs for their college-ready children.

2 hours ago

Video FaceTime 911 service

3 hours ago

Make it accesible to all. As a tourist WiFi accessibility is also a draw

5 hours ago

I have seen reports of other cities providing Internet accessibility city-wide, as a utility. I would love for Carlsbad to do this.

7 hours ago

don't know

7 hours ago

I'd like the City website to be faster and I'd like to be able to pay bills online easily, as well as find summer camps instead of going through the enormous paper catalog.

7 hours ago

Reporting traffic and crime issues through a Carlsbad city service would be very helpful so I am in the know.

7 hours ago

Make sure we spend on good backups and security so we're not stuck paying BTC ransom to some east bloc hackers

7 hours ago

No 5G

7 hours ago

I am not in favor of more technology. I prefer programs for all ages, I prefer better upkeep of parks, I prefer more support for libraries and library programs. I prefer more support for programs in senior centers and youth centers, etc.

yesterday

N/A

yesterday

New city hall.

yesterday

Safety tower at parks and throughout the city to alert police if you are in trouble would be a good idea

yesterday

I think the city is doing a great job as is.

yesterday

I would like to have an integrated system that would allow me to conduct all of my city business from one web site.

yesterday

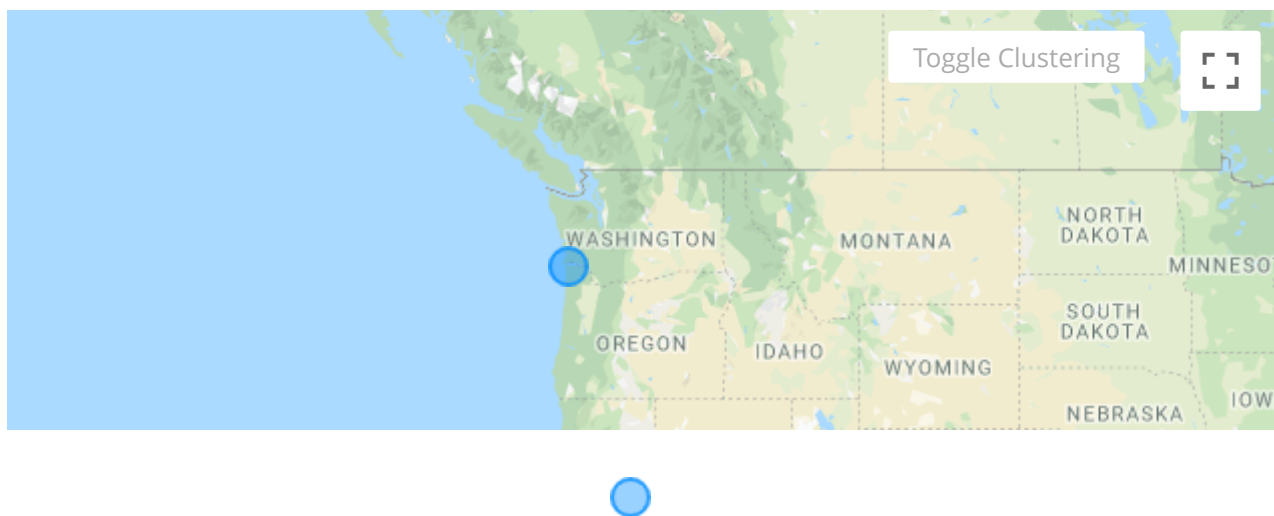

- Make appointments electronically
 One password for all city systems
 Cameras at city facilities and parks that police can watch
 WiFi at city gathering places
 Monitoring of environmental conditions
 Open data platform
 Self service kiosks
 Shuttle driverless in village and on main thoroughfares
 Ability to chat online to get assistance instead of having to call or go to city hall
 2 days ago
- Provide citywide internet service to provide faster, cheaper and more reliable internet. Would provide legitimate competition to the existing providers and could add a revenue source for the city. The current providers are unreliable, overpriced, and basically hold a monopoly on internet service keeping prices high.
 2 days ago
- Reduce the homeless population.
 2 days ago
- keep up the good work
 2 days ago
- It would be helpful to have a discounted rate adjustment for seniors such as myself living on a fixed income and with several medical problems.
 2 days ago
- Improve traffic flow so that by adhering to speed limit would reduce the number of red lights along the way
 3 days ago
- no
 3 days ago
- I wish to repeat the importance of providing better communication regarding recycling and what can be recycled. Also, more communication regarding how to properly recycle.
 3 days ago
- Safety in the Barrio and village community
 4 days ago
- Free WiFi should be unnecessary as more unlimited data plans are rolled out along with 5G speed. Also, public WiFi enables hackers to operate at will. I would never use it. There are better ways to use the city's funds.
 4 days ago
- I wouldn't want WiFi services available at parks. The park should be one place that we shouldn't be connected electronically.
 4 days ago
- I'd love to see fiber as a city utility. Talk about a draw for business and residents!
 5 days ago
- Understand Risk-Security-Privacy Resiliency BEFORE you attempt to connected Carlsbad if you do not do this the right way it will be an expensive failure. We also now have CCPA . Establish a advisory Public Partner Committee for expertise and services.
 5 days ago
- Don't waste city funding to provide WiFi city wide. I pay for it already with my phone service.
 5 days ago
1. Stop light traffic flow
 2. WiFi accessibility at beach areas for emergencies. Cell phone often don't work at the beach areas
 6 days ago

- Don't allow 5 G towers to be put up until they are fully tested on the human impact. I do NOT want more EMF exposure! And don't put WiFi everywhere. Parks and recreation areas do Not need WiFi because their sole purpose is to get people off their screens and get them moving, exercising, playing games, engaging with friends and family.
6 days ago
- Embrace technology; make the city more citizen governed and less staff led through the use of technologically enabled connectivity.
6 days ago
- Access to WiFi at beaches if possible ppl do a lot of reading at the beach
6 days ago
- City should develop a City wide 5g access to all citizens
6 days ago
- A very poorly constructed survey
6 days ago
- Provide continuing education, likely a partnership with local libraries and schools, regarding proper technology user etiquette. Jon Moffat's cyber education programs should be a model if our city plans to ramp up technology use.
6 days ago
- Technology needs major improvement. Internet goes down often at the Senior Center, not sure if this is in all centers but doesn't make sense. I couldn't renew a library book at the SC because network down. Then I went to a presentation which needed wifi and it just buffered and wouldn't work. Wasting people's time and city should do better. Later was told wifi not working but what excuse is that?
6 days ago
- This is one more reason we love Carlsbad - the fact that you guys are thinking about this. 😊
7 days ago
- Allow access to videotapes of accidents.
7 days ago
- Better user interface for parks and rec. Username login at library instead of long library number. Same for utilities.
8 days ago
- free wifi on your phone is important and very helpful for tourists
8 days ago
- Making it easier to report non-emergency issues/parking violations to the City and/or law enforcement
8 days ago
- Smart traffic lights I find very useful, and it is very frustrating when faced with old tech in this regard. The city library/friends sponsorship of Kanopy downloads was a short lived but wonderful improvement.
9 days ago
- I feel it would be helpful to keep public informed almost immediately about any crimes or situations that we could fall victim to.
9 days ago
- Much of this survey centers on technology and not sustainability or community connectivity. I'd like to see the city do a better job building neighborhood sense of community which technology could be a part of. Technology shouldn't be thought of as the end goal but a tool for more important goals.
9 days ago

- improve speed to access information. have a better menu available to get to subject matter quicker. Have ability to have more choices of subjects sent via e-mail to users when items are updated. train residents on how to use social media and how to get at subjects of interest only. have free classes on how to use and access social media and city topics. have them more often and at different times of day.
9 days ago
- There's enough free access given thru State. No need to burden City's citizens with taxes to provide free access.
9 days ago
- it should be easy to use; open, honest and inviting to create real community dialog; and at its core recognize that open communication, honest information, and inclusive dialog are foundations to a healthy and vibrant community. Technology must foster and support these foundations.
9 days ago
- I think the City of Carlsbad does a great job already, but it's hard to know what might be missing, when we don't yet have it. I look forward to continued progress in the future!
9 days ago
- City provided free public access would help seniors on fixed incomes and provide services throughout the city. Enhanced safety.
9 days ago
- It is important that departments establish and maintain transparency
9 days ago
- Use technology to improve transportation and mobility around Carlsbad.
9 days ago
- Safety issues
9 days ago
- Citywide backup electricity, text updates for critical infrastructure or related concerns, live access to traffic and police activity
9 days ago
- I see major accidents sometimes and there is no place to find out what is going on for a day or two. I find out about events by noticing signs, I wish I could REALLY find out what's going on and when. There seems to be a tight group of people who make all decisions, not open to new ideas.
9 days ago
- Keeping us informed
9 days ago
- Provide digital opportunity to meet user's demand.
11 days ago
- 311 access
12 days ago
- The City of Carlsbad should be its own municipal Internet provider, providing broadband access for businesses and residents for a reasonable fee. Not just free WiFi. Carlsbad should work with backbone companies to delivery fiber broadband throughout the city, including T1 and above lines to businesses, instead of leaving this service to outside communications companies whose objective is to sell data and personal access statistics to marketers and the Federal government, who have shown and proven that they are against net neutrality to maximize the monopoly power of communications companies. Just like water and electricity, information via Internet access should be just another utility, because citizens can't live without it.
12 days ago
- Great job once again reaching out to the community through surveys! Keep doing this, please.
12 days ago

- Out all the information you gather and collect fees for in a searchable database . ie where the stvr are located, where the alcohol licenses are located, where anything You license is at.
13 days ago
- N/A
13 days ago
- Please educate citizens about online scams and data privacy issues, especially our elderly population.
13 days ago
- It's not my top priority.
13 days ago
- More street cameras in neighborhoods due to increases in petty crimes such as porch pirates, break ins, etc. Although many feel this is an invasion of privacy, this could help catch would be felons. It would also give a sense of real safety for those parents whose children walk home from school alone. It would also make older residents living alone feel safer if the cameras deter crime.
15 days ago
- First Net and NIEM that aligns with State Federal FEMA and DHS
15 days ago
- Don't rely on technology. Assign more live people who answers phone live - especially for police, including non emergency line and parking violation reporting
15 days ago
- I would like to see technology used to greatly improve the flow of traffic and ease of commuting around the city. Also, becoming a solar powered community as much as possible where connecting and charging all devices and powering E-vehicles is built into the infrastructure of the City.

- Complete red light coordinations throughout city
16 days ago
- reach out to the silent majority instead of caving into the desires of the squeaky-wheel minority. Create engaging, visually appealing and interesting mechanisms for gathering public input instead of survey monkey-type of questions. Take ipads out to the streets to get input from those that don't typically engage.
