

## Department Shoot December 2018

### MACTAC

**Equipment:** Pistol, patrol belt, vest, plate carrier, helmet, rifle, two rifle magazines filled with 25 rounds each, 4 white standard Carlsbad Police qualification targets, two friendly targets, one blank gun, one white board, and white board markers. There should be a one on one ratio for instructors and students and one person operating the targets.

### **Classroom Review:**

- Explain Bounding (Possible walk through outdoors at the STC)
- Cover communication
- 3 D's (Description, Direction, Distance)
- A.C.E. (Ammo, Casualties, Equipment)

### **Course of Fire**

This course of fire should be completed with \_\_\_ shooters on the 25 yard side of the Carlsbad Range. The students will be briefed on the threat targets (The white standard Carlsbad Police qualification targets) and the presence of innocent victims.

Muzzle discipline and weapon safety will be reiterated during the instruction portion of this shoot.

Ammo management will be on the students. The students will be instructed when to bound by the range staff. The shooting of a no shoot target will result in a qualification failure.

### **The Rifle Shoot**

- 1.) **25 yards:** Students will start in the standing position. At the sound of gunshots (blanks) the students will drop to a kneeling position and fire 10 rounds at their designated target in 12 seconds. Once the shooting has stopped the students will communicate the 3 D's (Description, Direction, and Distance) of the suspect(s). The students will then tactically bound to their next shooting position, the 20 yard line. The students must communicate with each other and coordinate their bounding movement. (10 rounds)
- 2.) **20 yards:** Students will assume a kneeling position. At the sound of gunshots (blanks) the students will return fire and shoot 10 rounds to the center mass of their respective target in 12 seconds. Once the shooting has stopped the students will communicate the 3 D's (Description, Direction, and Distance) of the suspect(s). The students will then tactically bound to their next shooting position, the 15 yard line. (10 rounds)

- 3.) **15 yards:** Students will assume a kneeling position behind cover: At the sound of gunshots the students will return fire and shoot 10 rounds to the center mass of their respective target in 10 seconds. Once the shooting has stopped the students will communicate the 3 D's (Description, Direction, and Distance) of the suspect(s). The students will then tactically bound to their next shooting position, the 10 yard line. (10 rounds)
- 4.) **10 yards:** Students will assume a standing position behind cover: friendly targets will flip (no shoot targets) and no blank rounds will be fired. Students should not engage the targets and should instead issue verbal commands.
- 5.) **10yards:** Students will stay in a standing position behind cover: At the sound of gunshots the students will return fire and shoot 10 rounds to the center mass of their respective target in 10 seconds. Once the shooting has stopped the students will communicate the 3 D's (Direction, Distance, and Description) of the suspect(s). The students will then tactically bound to their next shooting position, the 5 yard line. (10 rounds)
- 6.) **5 yards:** Students will assume a standing position. All targets will flip, both no shoot and shoot targets, and blank rounds will be fired. The student will return fire on their respective shoot targets, 10 rounds center mass in 7 seconds. Once the shooting has stopped the students will communicate the 3 D's (Description, Direction, and Distance) of the suspect(s). The team leader will then conduct a brief A.C.E. (Ammo, Casualties, and Equipment) report. (10 rounds)

### **Pistol Shoot (1-4 Can Be Shot in Low Light)**

- 1.) **3 yards:** Students will start standing pointing an unloaded rifle down range. The respective threat target will flip and the shooter will attempt to engage with their rifle. The student will transition to a pistol and fire a failure drill in 5 seconds. Repeat Course of fire. (6 rounds)
- 2.) **5 yards:** Students will start standing pointing an unloaded rifle down range. The respective threat target will flip and the shooter will attempt to engage with their rifle. The student will transition to a pistol and fire a failure drill in 6 seconds. Repeat Course of fire. (6 rounds)
- 3.) **7 yards:** Students will start in a kneeling position pointing and unloaded rifle down range. The respective threat target will flip and the shooter will attempt to engage with

their rifle. The student will transition to a pistol and fire a failure drill in 6 seconds. Repeat course of fire. (6 rounds)

- 4.) **10 yards:** Students will start in a standing position with their rifle slung and their pistols at the low ready. The respective targets will flip and the shooter will fire 2 rounds center mass in 3 seconds. Repeat course of fire. (4 Rounds)
- 5.) **15 yards:** Students will start in a standing position with their rifle slung on their backs and their pistols at the low ready. The respective targets will flip and the shooter will fire 2 rounds center mass in 4 seconds. Repeat course of fire. (4 Rounds)
- 6.) **20 yards:** Students will start in a standing position with their rifle slung on their backs and their pistols at the low ready. The respective targets will flip and the shooter will fire 2 rounds center mass in 6 seconds. (2 Rounds)
- 7.) **25 yards:** Students will start in a **prone position** with their rifle slung on their backs and their pistols at the low ready. The respective targets will flip and the shooter will fire 2 rounds center mass in 6 seconds. (2 Rounds)
