

## DEMOLITION REQUIREMENTS B-9

*Development Services*

*Building Division  
1635 Faraday Avenue  
442-339-2719  
www.carlsbadca.gov*

**A permit for demolition of a structure can be issued after approval and issuance of a grading permit. Please contact the building division with questions on the demolition process. The following items must be completed prior to issuance of a demolition permit.**

- Completed Building Permit Application (Form B-1 or B-2):** A demolition permit may only be issued to the owner of the property or the State Licensed Contractor that is doing the work.
- Four (4) sets of plans:** Building, Planning, Engineering and Fire division will review and comment/approve the submittal.
- Letter from Property Owner:** The contractor must provide a letter, signed and dated by the property owner, giving permission for the building to be demolished.
- Demolition Asbestos Certification:** This certification must be completed, signed and have the correct square footage of the structure being demolished, as well as its use.
- San Diego Regional Hazardous Materials Questionnaire:** For ALL demolition projects, proof of application to County of San Diego Air Pollution Control District must also be provided. Asbestos or lead paint remediation must occur prior to issuance of a demolition permit by the City. Demolition of painted areas of structures built prior to 1978 are to be treated as Presumed Lead-Based Paint areas.
- San Diego Gas and Electric:** Applicant must provide a letter from San Diego Gas and Electric stating that the utilities have been disconnected.
- Waste Management Plan (Form B-59):** Comply with California Green Code waste disposal and recycling management program (65%). Section 4.408.1 and Section 5.408.1. Complete the attached B-59, Waste Management Plan which estimates the waste to be recycled.
- Public Property:** If applicable provide plans and details demonstrating measures to protect public property and walkways.

**Additional items that may be required:**

1. **Water Agency:** Arrange for appropriate Water Agency to remove watermeter unless construction of replacement structure is to begin shortly.
2. The **Planning** Division will determine if the structure is in the Village Review area, the South Carlsbad Review area, the Coastal Zone or if discretionary mitigation conditions apply.  
(760)  
602-4610
3. The **Land Development & Engineering** Division will determine if a Haul Route, Right-of-Way Permit or Storm Water Permit is required. 442-3392750.
4. **Fire** Department may need the use of the building for training purposes. 442-339-4665.

**CONSTRUCTION WASTE  
MANAGEMENT PLAN  
B-59**

***Development Services***

*Building Division  
1635 Faraday Avenue  
442-339-2719  
www.carlsbadca.gov*

Section 4.408.1 and Section 5.408.1 of the 2019 California Green Building Standards requires at least 65% of non-hazardous construction debris is recycled and/or salvaged for reuse.

With the submitting of your application for a Building Permit or permit issuance, you must have completed a Construction Waste Management Plan (CWMP) demonstrating how you will **recycle a minimum of 65%** of the construction waste generated from your project.

**NOTICE:** Applicant (contractor and subcontractors) shall comply with the project's CWMP. It is the Applicant's responsibility to collect all receipts from the facilities that recycle their materials AND all project waste/landfill disposal receipts. When working with the City's franchised hauler, Waste Management, one cumulative project receipt is acceptable. However, it is the Applicant's responsibility to confirm that the bins are collected for C&D Recycling.

1. This project shall generate the least amount of waste possible by planning and ordering carefully, following all proper storage and handling procedures to reduce broken and damaged materials, and reusing materials whenever possible.
2. Waste Management Services can provide 2 roll-off bins, one for commingled construction debris and one for trash. The commingled construction roll-off bin will be taken to a Certified Mixed C&D Processing Facility to sort the material and create receipt(s), to demonstrate the project has met a 65% diversion rate or greater.
3. Applicants with a goal of recycling greater than 65% of the project's total waste should work with, the City's exclusive franchised waste hauler, to develop a more specific CWMP. This plan may include using additional roll-off bins for particular phases of construction (e.g., concrete and wood waste) to ensure the highest waste diversion rate possible.
4. Contractors/subcontractors hauling their own waste as part of their scope of work (e.g., construction clean up companies, etc.) SHALL NOT be excluded from complying with the CWMP and shall provide weight and waste diversion receipts from a Certified Source Separated Recycling Facility. For a current list of Certified Recycling Facilities go to <http://www.sandiego.gov/environmental-services/recycling/cd/index.shtml>.
5. If contractors/subcontractors furnish their own debris boxes as part of their scope of work, they SHALL NOT be excluded from complying with the CWMP and shall provide weight and waste diversion receipts from a Certified Source Separated Recycling Facility.

**Part 1 - Before the Project Begins**

Prior to issuance of a Building Permit, Applicant must submit PART 1 of the Construction Waste Management Plan (CWMP) Table.

- a. Submit completed and signed form to City with Building Permit application.

**Part 2 – During and After the Project**

Prior to receiving inspection for final sign off of the Building Permit or Certificate of Occupancy, Applicant must submit the fully completed and approved PART 2 of the Construction Waste Management Plan (CWMP) Table.

- a. Save all receipts and/or documents from reuse facilities, recycling centers, processing facilities, and landfills where materials were taken.
- b. Complete the Debris Recycling Report (DRR) as your project progresses. Recycling/diversion goals are (at a minimum) 65% of the waste generated by your project.
- c. Return completed form to: City of Carlsbad Building Division - 1635 Faraday Ave, Carlsbad, CA 92008 or your inspector prior to requesting final inspection.

CONSTRUCTION WASTE MANAGEMENT PLAN B-59

Development Services

Building Division
1635 Faraday Avenue
442-339-2719
www.carlsbadca.gov

Many of the materials generated from your project can be recycled. You are required to list materials that will be reused, recycled or disposed from your project. If you have questions about the recycling requirement or completing this form, please contact Waste Management at 442-339-9400, a certified C&D recycler, or the Carlsbad Building Division at 442-339-2700. Please note: Unless you are self-hauling, Waste Management or approved haulers must be used for all construction projects within the City of Carlsbad.

PART 1 Complete and submit this form when applying for a Building Permit. Note: Permits will not be issued without a completed Construction Waste Management Plan.

Applicant Information

Permit No. Project Title

Project Address APN

Applicant Name Last First Owner Contractor Architect Other

Applicant Address

Phone ( ) E-mail Address

Applicant Mailing Address (if different than project address)

Project Type (check all that apply): Residential Commercial Public Building Industrial

Brief Description

Project Size Estimated Cost of Project \$ (square footage)

Please check the appropriate box:

- I plan on using REPUBLIC SERVICES roll-off bin(s) for all materials and will provide all receipts after construction.
I plan on using a City Approved Hauler and will provide all receipts after construction.
This is a proposed LEED certified project and I plan on separating materials on site in conjunction with REPUBLIC

Acknowledgement: I certify under penalty of perjury under the laws of the State of California that the information provided in and with this form pertains to construction and demolition debris generated only from the project listed in PART 1, that I have reviewed the accuracy of the information, and that the information is true and correct to the best of my knowledge and belief.
